CAPITAL COST:

Estimated \$675 million

Providing a connection to the Calgary International Airport from the Blue Line in the Northeast, this project brings travelers and employees to and from Calgary International Airport, with key stops in the surrounding industrial areas. This project supports Calgary's economy by connecting rapid transit lines and enhancing access between the downtown, airport and the region.

PROJECT BENEFITS:

Usage:

- Estimated 13,000 passengers per weekday

Reduced Emissions:

- Saves up to 5,300 tonnes of greenhouse gas emissions a year

Job Creation:

- Estimated 2,929 regional jobs during construction period

Improved Mobility:

- Estimated 12,500 Calgarians living within 800m of the station in 2048
- Estimated 10,700 jobs within 800m of the station in 2028

Service Enhancements:

- Improves customer travel time and reliability converting from bus to LRT
- Directly connects Calgarians in NE Calgary to the large employment base at the airport

PROJECT FEATURES:

- 6 km between 88 Avenue NE Station and Airport Terminal
- 3 new transit stations
- Supports Calgary, Alberta and Canada's Economic Strategy by connecting rapid transit lines and enhancing access between the Downtown, airport and the region.
