

Weather Resources

[Calgary forecast](#)

Official Environment and Climate Change Canada (ECCC) Calgary forecast.

[Alberta weather alerts](#)

Official ECCC weather alerts.

[Weather radar](#)

Particularly useful when making outdoor plans on a rainy day, also accessible from the WeatherCAN smartphone app below.

[@ECCCWeatherAB twitter account](#)

ECCC meteorologist-created tweets with additional information about upcoming weather.

[ECCC's weather app \(WeatherCAN\)](#)

Available on Google Play and Apple app store; will send push notifications of alerts over your area to your phone.

[ECCC thunderstorm outlook](#)

A day one and two thunderstorm risk graphic issued between May and September long weekends to cover the summer. A great product to check before heading out for outdoor fun.

[Weatheradio](#)

An effective way of receiving forecasts and alerts for your area if you are outside of cell/internet service; requires a [receiver \(radio with the right channels\)](#). Weatheradio will issue an alarm to notify you when an alert is issued for your area.

[Lightning danger map](#)

The Canadian Lightning Danger Map represents areas at greatest risk of lightning in the next 10 minutes. Please refresh the browser to make sure you are looking at most up to date information.

[Surface weather analysis](#)

Useful to identify fronts, high and low pressure centres.
