# Freedom of Information and Protection of Privacy (FOIP)

Freedom of Information and Protection of Privacy rules are applied to the data to ensure that no individual can be identified in any of the data released.

If there are 5 or less residents showing within a community or if there are 10 or less residents in 20 or fewer dwellings units within a community the data is removed from the community and included under the residual area for the ward.

Census data, at the dwelling unit level, becomes public from The City of Calgary Archives once the data has been in existence for 50 years.
