Agenda

- Welcome** (Quinn Eastlick)
- Consultation expectations** (Quinn Eastlick)
- Off-site Levy strategy impacts to Water Resources** (Daniel Vincent)
- Types of infrastructure and input requested** (Daniel Vincent)

Feedback collected:

Question 1: Do you understand the impacts of the new strategy to each infrastructure type?

- Interested in learning more about how infrastructure costs will be assigned to areas and be applied to the numerator.

Question 2: What concerns do you have for the new strategy based on type of infrastructure?

- Interested in learning more about the transition between the existing levy methodology to the future levy methodology.
- For consideration: how do you make the connection between a city-wide catchment area and collection from a defined area?

Question 3: For the key elements of the strategy –do you understand what we are trying to achieve, any concerns with key elements?

- Want to understand the cut-off date for project estimates/actuals used in the numerator and when the new rates will come into effect.

Summary of Action Items

- None
