

Construction Update: Bearspaw South Feeder Main Repair

September 11, 2024

The City of Calgary is making progress on urgent repairs to sections of the Bearspaw South Feeder Main. The majority of these repairs are taking place along a section of 33 Ave N.W. and along 16 Ave N.W. as well as a section at Shouldice Park.

UPDATE: 33 Ave. N.W. Sites 1-3

Our crews are approaching the final stages of repairs to the feeder main on 33 Avenue N.W. at worksites 1-3 which are located between 78 St N.W. and 85 St N.W. We are now in the final stage of construction backfilling and repaving the road. We anticipate this to be complete by the end of the week, depending on the weather.

UPDATE: 33 Ave. N.W. Site 5

Our crews are also progressing well at site 5 which is the most westerly on the street, located between 85 St N.W. and 87 St N.W. Weather permitting, we anticipate wrapping up pouring concrete this week with backfilling and paving expected to begin on the weekend.

We will have an update later this week on construction progress and when sections of the road will reopen.

Sidewalk, Curb, and Driveway Restoration

Once our crews finish repaving the road, we will begin restoring sidewalks, curbs, and driveways. We are currently developing a plan and will have more information to share next week.

Landscaping Restoration

As landscaping design varies across the neighbourhood, we will be assessing each affected area to determine the appropriate time for restoration. In some cases, certain plants/landscaping may not survive the winter if replanted now. We will discuss with individual homeowners their specific circumstances.

Supporting Montgomery and Bowness Businesses

As this continues to be a challenging time for businesses in the community of Montgomery and Bowness, we are strongly encouraging Calgarians to continue visiting and supporting these businesses as we near the final stages in construction.

Project Information or Questions

We will continue to provide regular updates on construction progress. For updates visit: [Calgary.ca/feedermainupdates](https://calgary.ca/feedermainupdates) or scan the QR code.

Thank you for your support and patience as we complete these important repairs to the Bearspaw South Feeder Main.
